

Tamper Switch

"RC" make tamper switch is designed to be used with any type of quarter turn valve to provide actual position status to BMS/SCADA fire alarm panel or other types of monitory systems. mostly used on butterfly valve and ball valve for HVAC and Fire fighting

Basic Features

The tamper/supervisory switch from rapid controls pvt. Ltd. Is engineered to deliver reliable and high performance operation in demanding environments. Here's what sets it apart:

- Complete made in INDIA
- Weather proof enclosure
- Potential Free Provision
- Top mounted position indicator
- PCB mounted micro switch for readability and accuracy
- Rigid design heavy duty structure complete emprise made out of metal

Application

- Fire protection systems
- HVAC installations
- Industrial process control
- Building management systems (BMS)

S.NO.	DESCRIPTION	DETAILS
1	HOUSING	ALUMINIUM DIE CASTED
2	BONNET	ALUMINIUM DIE CASTED
3	SHAFT	SILVER STEEL
4	SHAFT GLAND	NBR O-RING
5	POSITION INDICATOR	TOP MOUNTED, CONTINUOUS POSITION INDICATED
6	CABLE GLAND	PG9, CABLE GLAND
7	IP RATING	I.P.66 RATED
8	FEEDBACK PROVISION	POTENTIAL FREE FEEDBACK, 16A @ 220V AC OPEN – COM/NO/NC CLOSE – COM/NO/NC
